Dear Valued Customer

Re: Victorian Government Mandate of COVID-19 Vaccination

Following the Victorian Governments recent announcement, regarding the mandate on COVID-19 Vaccinations, DAL can confirm that all of their Victorian based employees have received at least one dose of the COVID-19 vaccine.

From Friday, 22nd October all employees have been advised that they may need to show proof of vaccine when entering your site and have been advised that DAL have an expectation that they comply with this request.

To ensure the ongoing safety of our own team, as well as workers on your site, and to ensure compliance with the Government directions, DAL have undertaken their own inspections and audits, including visual inspections of vaccination certificates, to ensure that all our employees are compliant.

If you have any further questions or concerns, please contact myself below.

Your sincerely

Stuart Morse
